

Power and Energy Systems (AsiaPES 2010)

November 24 – 26, 2010
Phuket, Thailand
Editor(s): I. Ngamroo

Other Years:

Abstracts may contain minor errors and formatting inconsistencies.
Please contact us if you have any concerns or questions.

Track	Solar Photovoltaic	Free	Subscription
701-066	New Control for Stand Alone Solar Collector J.-L. Canaletti, C. Cristofari, G. Notton, P. Poggi, and M. Muselli (France)	Abstract	Buy now <input type="checkbox"/>
701-068	Influence of Accelerate Electron Ray on Photoelectric Properties of AlGaAs-GaAs Solar Cells and Optimization of Solar Cells M. Sojoudi, R. Madadov, and T. Sojoudi (Iran)	Abstract	Buy now <input type="checkbox"/>
701-069	Performance Evaluation of the PV Generator in the PV Microgrid System in Thailand A. Chintavee and N. Ketjoy (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-080	Influence of Inverter Dominated Small Energy Producers on the Voltage Stability of Distribution Grids in Steady State S. Brenner, M. Wolter, and L. Hofmann (Germany)	Abstract	Buy now <input type="checkbox"/>
701-098	Voltage Control in Distribution System with Large Amount of Photovoltaic Generations S. Sekizaki, M. Aoki, H. Ukai, T. Shigetou, and S. Maru (Japan)	Abstract	Buy now <input type="checkbox"/>
701-143	Operation Characteristic Analysis of MPPT under Varying Irradiance Condition S.-Y. Kim, N. Kim, H.-G. Lee, C. Hwang, G.-H. Kim, H.-R. Seo, M. Park, and I.-K. Yu (Korea)	Abstract	Buy now <input type="checkbox"/>

Track	Distributed Generations	Free	Subscription
701-015	A Hierarchy Control Strategy of Distributed Generation with Power Electronic Grid Interface W. Sinsukthavorn, E. Ortjohann, M. Lingemann, S. Jaloudi, P. Wirasanti (Germany), and D. Morton (UK)	Abstract	Buy now <input type="checkbox"/>
701-016	Clustered Multi-Level Hierarchy for Secondary Power System Control M. Lingemann, E. Ortjohann, W. Sinsukthavorn, S. Jaloudi (Germany), and D. Morton (UK)	Abstract	Buy now <input type="checkbox"/>
701-049	A Study on Power System Applications of Next-Generation Power Devices through Analytic Hierarchy Process Y. Omagari, O. Saeki, Y. Miura, and H. Sugihara (Japan)	Abstract	Buy now <input type="checkbox"/>
701-067	Optimal Choice and Allocation of Distributed Generations using Evolutionary Programming R. Jomthong and P. Jirapong (Thailand)	Abstract	Buy now <input type="checkbox"/>

Track	Renewable Energy and Power Quality	Free	Subscription
701-048	Total Transfer Capability Evaluation of a Power System with Renewable Energy N. Paensuwan and A. Yokoyama (Japan)	Abstract	Buy now <input type="checkbox"/>
701-059	Analysis, Modeling and Control of Cascaded NPC/H-Bridge Inverter for High Power Quality Grid Connection T. Wanjekeche, D.V. Nicolae, and A.A. Jimoh (S. Africa)	Abstract	Buy now <input type="checkbox"/>
701-064	Shunt Reactive Compensation for Voltage Dip and Unbalance F. Welgemoed and J. Beukes (S. Africa)	Abstract	Buy now <input type="checkbox"/>
701-083	Improved Time-based Hysteresis for a Multilevel Inverter based Shunt Active Filter A. Elnahdy (UAE)	Abstract	Buy now <input type="checkbox"/>
701-090	Power Factor Improvement using RNSIC Rectifier C. Filote, C. Ciufudean, M.V. Micea, and A.-M. Cozgarea (Romania)	Abstract	Buy now <input type="checkbox"/>
701-123	Significance of Storage and Feasibility Analysis of Renewable Energy with Storage System M.T. Arif, A.M.T. Oo, A.B.M.S. Ali, and Md.F. Islam (Australia)	Abstract	Buy now <input type="checkbox"/>

Track	Wind Power	Free	Subscription
701-037	The Impact of Wind Power Loading on the Power System Transient Stability R.T. Ayodele, A.A. Jimoh, J.L. Munda, and J.T. Agee (S. Africa)	Abstract	Buy now <input type="checkbox"/>
701-038	Modified Cascade-Correlation of ANN for Short Term Prediction of Wind Speed Md.F. Islam and A.M.T. Oo (Australia)	Abstract	Buy now <input type="checkbox"/>
701-043	Performance Analysis of Hybrid (Wind & Solar) Power Plant - A Case Study S.M. Jaralakar and M. Aruna (India)	Abstract	Buy now <input type="checkbox"/>
701-084	Application of Resistive Type Superconducting Fault Current Limiter to Wind Farm Interconnection in Smart Grid System K. Hongesombut (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-137	Simulation based Power Quality Prediction of Jeju Power System with Wind Farms using RTDS G.-H. Kim, H.-T. Bae, S.-Y. Kim, C. Hwang, H.-G. Lee, N. Kim, H.-R. Seo, M. Park, I.-K. Yu, J.-D. Park, D.-Y. Yi, and S. Lee (Korea)	Abstract	Buy now <input type="checkbox"/>

Track	Power System Stability and Control	Free	Subscription
701-010	On the Expansion of Stability Region Estimation F. Liu, W. Wei, and S. Mei (PR China)	Abstract	Buy now <input type="checkbox"/>
701-025	Robust Single Machine Infinite Bus with UPFC Connected to a Transmission Line G.P. Yuma, J.L. Munda, and K. Kusakana (S. Africa)	Abstract	Buy now <input type="checkbox"/>
701-047	A New Coordinated Control Scheme of PSS and SVC for Enhancing Power System Stability C. Jakpattanjit, N. Hoonchareon (Thailand), and A. Yokoyama (Japan)	Abstract	Buy now <input type="checkbox"/>
701-057	Equivalence of Three Methods for Computing Small-Signal Stability Boundaries for Power Systems F. Liu, D. Zhang, S. Yang, S. Mei, and G. He (PR China)	Abstract	Buy now <input type="checkbox"/>
701-058	Bidirectional Interaction based Coordinated Voltage Control System for Hierarchical Electrical Power Control Centers B. Wang, Q. Guo, H. Sun, H. Li, J. Luo, B. Zhang, and W. Wu (PR China)	Abstract	Buy now <input type="checkbox"/>
701-061	Polynomial Approximation of Small Signal Stability Region Boundary in Parameter Space S. Yang, F. Liu, D. Zhang, S. Mei, and G. He (PR China)	Abstract	Buy now <input type="checkbox"/>
701-138	Damping Power System Oscillation in Critical Conditions using UPFC D. Mostafa Tobnaghi, P. Farhadi, B. Najafi, M. Karimi, and M. Toloei (Iran)	Abstract	Buy now <input type="checkbox"/>

Track	Power System Protection and Metering	Free	Subscription
701-006	Neural Network based Adaptive Overcurrent Directional Protection in Large Electrical Power Networks N.H. El-Amary, Y.G. Monir, and T. Youssif (Egypt)	Abstract	Buy now <input type="checkbox"/>
701-030	Frequency Dependent Auto Load Shedding Scheme to Prevent Frequent Blackouts in Bangladesh Power System Q. Ahsan, A.H. Chowdhury, S.S. Ahmed, I.H. Bhuyan, A. Haque, and H. Rahman (Bangladesh)	Abstract	Buy now <input type="checkbox"/>
701-041	Optimal Placement of PMU using Improved Tabu Search for Complete Observability and Out of Step Prediction A.M. El-Zonkoly, S. El-Safty, and R. Maher (Egypt)	Abstract	Buy now <input type="checkbox"/>
701-050	Design, Fabrication and Testing of Transformer Static Differential Relay Circuit with Harmonic Blocking H.B. Ramachandraliah, J. Balakrishnan, and S.H. Jangamshetti (India)	Abstract	Buy now <input type="checkbox"/>
701-053	Development of an Integrated and Networked Digital Metering System for AC Power Distribution L.G. Krishnamurthy, N. Raghuprakash, and S.H. Jangamshetti (India)	Abstract	Buy now <input type="checkbox"/>

Track	Power System Security and Operation	Free	Subscription
701-021	Dynamic System Security Assessment using Inventive Simulation Techniques E. Lerch (Germany) and U. Kerin (Slovenia)	Abstract	Buy now <input type="checkbox"/>
701-088	Allocation of Responsibility for Congestions in Transmission Systems based on Power Flow Decomposition M. Wolter and L. Hofmann (Germany)	Abstract	Buy now <input type="checkbox"/>
701-099	Power System Security Enhancement by Optimal Placement of UPFC J.G. Singh (Thailand), S.N. Singh, S.C. Srivastava (India), and L. Söder (Sweden)	Abstract	Buy now <input type="checkbox"/>
701-101	Voltage Collapse Constrained Loadability Analysis of Bangladesh Power System Network Md.J.-E. Alam (Australia) and A.H. Chowdhury (Bangladesh)	Abstract	Buy now <input type="checkbox"/>
701-109	Adaptive Real Range Genetic Algorithm for Combined Heat & Power Economic Dispatch A.K. AL-Othman and S.S. AL-Mutar (Kuwait)	Abstract	Buy now <input type="checkbox"/>

Track	Power System Planning	Free	Subscription
701-027	Electricity Generation Portfolio Analysis for Coal, Gas and Nuclear Plant under Future Uncertainties P. Vithayasrichareon, I. MacGill (Australia), and F. Wen (PR China)	Abstract	Buy now <input type="checkbox"/>
701-055	Effect of Reserve Supplying Demand Response with Payback Characteristics in Optimal Market Scheduling M. Behrangrad, H. Sugihara, and T. Funaki (Japan)	Abstract	Buy now <input type="checkbox"/>
701-060	Sustainability Challenges for Electricity Industries in ASEAN Newly Industrializing Countries P. Vithayasrichareon, I. MacGill (Australia), and T. Nakawiro (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-089	Scientific Analysis of Inter-TSO-Compensation-Algorithms by Physically-based Power Flow and Superposition Methods T. Leveringhaus, M. Wolter, and L. Hofmann (Germany)	Abstract	Buy now <input type="checkbox"/>
701-139	Methodology Development for a Comprehensive and Cost-Effective Energy Management in Public Administrations S. Capobianchi, F. Martini, L. Andreassi, and V. Introna (Italy)	Abstract	Buy now <input type="checkbox"/>

Track	Renewable Power Generation	Free	Subscription
701-045	Numerical Study of Disk AC MHD Generation P. Intani, T. Sasaki, T. Kikuchi, and N. Harada (Japan)	Abstract	Buy now <input type="checkbox"/>
701-108	Energy from Forestry & Agricultural Residues J. Payamara (Iran)	Abstract	Buy now <input type="checkbox"/>
701-110	Finite Element Analysis for Performance Prediction of Induction Motor with Broken Rotor Bars M.S. Manna, S. Marwaha, and A. Marwaha (India)	Abstract	Buy now <input type="checkbox"/>
701-118	Modeling and Experimental Analysis of a Six-Phase Synchronous Generator for Stand-Alone Renewable Energy Generation G.K. Singh (India)	Abstract	Buy now <input type="checkbox"/>
701-126	Energy Conservation via the Diffusion of Sustainable Energy in Union of Myanmar W.W. Kyaw (Thailand)	Abstract	Buy now <input type="checkbox"/>

Track	Energy and Environment	Free	Subscription
701-020	An Innovative Drainpipe Integrated Solar-Water Collector: Presentation and First Results F. Motte, C. Cristofari, P. Poggi, G. Notton, and J.-L. Canaletti (France)	Abstract	Buy now <input type="checkbox"/>
701-077	GM(1,1) for Carbon Dioxide Emissions with a Taiwan Study C.-S. Lin, F.-M. Liou, and C.-P. Huang (Taiwan)	Abstract	Buy now <input type="checkbox"/>
701-113	Do Demand and Supply Shocks Explain USA's Oil Stock Fluctuations? A. Hayat and P.K. Narayan (Australia)	Abstract	Buy now <input type="checkbox"/>
701-122	Suitable Forms of Alternative Electricity-Supplementing Energy for Chiang Rai Province W. Nanglae (Thailand)	Abstract	Buy now <input type="checkbox"/>

701-132	Solar Cabinet Drying of Green Chillies and Potato Chips - An Experimental Study G.D. Agrawal and D. Parikh (India)	Abstract	Buy now <input type="checkbox"/>
701-134	Heat Transfer Enhancement with Al₂O₃ Nanofluid in Convective Heat Transfer A.K. Rajvanshi and O.S. Prajapati (India)	Abstract	Buy now <input type="checkbox"/>
701-144	The Comparison of Effect on Conducted EMI Emission and Harmonic Noise from Compact Fluorescent Lamp or Energy Saving Lamps C. Uyaisom (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-145	The Comparison of Effect on Conducted EMI Emission and Harmonic Noise from Circuits of Electronic Ballasts C. Uyaisom (Thailand)	Abstract	Buy now <input type="checkbox"/>

Track	Special Session 1: Microgrid and Smart Grid Control	Free	Subscription
701-040	Analysis of a Switched-Reluctance Generator for Maximum Energy Conversion S. Wongguokoon and S. Kittiratsatcha (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-085	An Intelligent Control for Distributed Flexible Network Photovoltaic System S. Park, K. Tanaka, Y. Miura, and T. Ise (Japan)	Abstract	Buy now <input type="checkbox"/>
701-146	Robust Frequency Control in the Smart Microgrid by Heat Pump and Plug-In Hybrid Electric Vehicle C. Rattapanornchai, I. Ngamroo, and S. Vachirasricirikul (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-147	Control Scheme of the DC Linked Solar and Gas Engine Hybrid Generation System for Residential Houses C. Lung, S. Miyake, H. Kakigano, Y. Miura, T. Ise, T. Momose, and H. Hayakawa (Japan)	Abstract	Buy now <input type="checkbox"/>
701-148	Experiment on Fault Current Limiting by a Single-Phase Bridge Type Fault Current Limiter with DC and AC Reactors N. Sujjapan and S. Polmai (Thailand)	Abstract	Buy now <input type="checkbox"/>

Track	Special Session 2: Wide Area Monitoring, Protection, and Control (WAMPAC) Systems	Free	Subscription
701-156	Mode Separation Method of Power System Oscillations by Applying Center of Inertia Frequency Estimated by Actual Measurement Data T. Hashiguchi, T. Goda, Y. Mitani, M. Watanabe, O. Saeki, M. Hojo, and H. Ukai (Japan)	Abstract	Buy now <input type="checkbox"/>
701-157	Online Monitoring of Power System Dynamics by Phasor Measurements at Low Voltage Terminals M. Hojo, M. Emoto, Y. Mitani, H. Ukai, and O. Saeki (Japan)	Abstract	Buy now <input type="checkbox"/>
701-158	Synchrophasor based Controller Design for Frequency Stabilization of Interconnected Power System with Plug-In Electric Vehicles S. Dechanupaprittha (Thailand) and Y. Mitani (Japan)	Abstract	Buy now <input type="checkbox"/>
701-159	Design of Robust Centralized PSS based on WAMS Considering System and Signal Transmission Delay Uncertainties M. Saejia and I. Ngamroo (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-160	Wide Area SMES Controller Design using Least-Squares Support Vector Machines J. Pahasa and I. Ngamroo (Thailand)	Abstract	Buy now <input type="checkbox"/>

Track	Special Session 3: Artificial Intelligence in Smart Power and Energy Systems	Free	Subscription
701-149	Microgrid Stabilization using Controllable Electrolyzer & Fuel Cell based on Bee Colony Optimization of Fuzzy-PID Controller T. Chaiyatham and I. Ngamroo (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-150	Robust Loop Shaping Control for Designing High Performance ACMC DC-DC Converter S. Kaitwanidvilai and P. Olanthichachai (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-151	Design of Robust Control and Monitoring System for Stabilization of Frequency Fluctuation in a Microgrid System S. Vachirasricirikul, I. Ngamroo, and S. Kaitwanidvilai (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-152	Robust Load Frequency Control for Two Area Interconnected Power System using GA C. Koisap, S. Kaitwanidvilai, and I. Ngamroo (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-154	Study Characteristics for Simultaneous Faults in Electrical Power Systems based on Wavelet Transform A. Ngaopitakkul and C. Apisit (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-155	Behavior of Winding to Ground Fault in Transformer Windings using Discrete Wavelet Transform C. Pothisarn, A. Ngaopitakkul, W. Pongchaisrikul, C. Apisit, and S. Jonpermpoonpol (Thailand)	Abstract	Buy now <input type="checkbox"/>

Track	Special Session 5: Transient Analysis in a Power System	Free	Subscription
701-161	Behavior of Interturn Fault in Transformer Windings using Discrete Wavelet Transform C. Jettanasen, A. Ngaopitakkul, and C. Apisit (Thailand)	Abstract	Buy now <input type="checkbox"/>
701-162	A TLM-based Surge Calculation Considering Lumped-Circuit Elements S. Yuda, N. Okazima, Y. Baba, N. Nagaoka, and A. Ametani (Japan)	Abstract	Buy now <input type="checkbox"/>
701-163	Numerical Analysis of Lightning Electromagnetic Pulses using the Constrained Interpolation Profile Method K. Miyagawa, S. Matsumoto, Y. Baba, N. Nagaoka, and A. Ametani (Japan)	Abstract	Buy now <input type="checkbox"/>
701-164	A Basic Study on Surge Over-Voltages in a Smart Grid A. Ametani, Y. Azewaki, J. Takami, and S. Okabe (Japan)	Abstract	Buy now <input type="checkbox"/>
701-165	Transient Response of a Building with Multiple Down Conductors to a Direct Lightning H. Uno, N. Nagaoka, Y. Baba, and A. Ametani (Japan)	Abstract	Buy now <input type="checkbox"/>
701-166	Lightning Overvoltages in a Wind Turbine Generator System K. Yamamoto (Japan)	Abstract	Buy now <input type="checkbox"/>
701-167	An Efficient Approach for Incorporation with a Non-Linear Element in a Quasi Static Partial Element Equivalent Circuit Method in the Time Domain P. Yuthagowith (Thailand) and A. Ametani (Japan)	Abstract	Buy now <input type="checkbox"/>
