INFORMATION FOR AUTHORS

Manuscripts submitted to the IEEE TRANSACTIONS ON INSTRUMENTATION AND MEASUREMENT should describe original work in instrumentation and measurement or closely related fields. The manuscripts must be exclusively submitted to this journal, must not have been published before, and must not be under consideration for publication elsewhere.

Some manuscripts submitted in conjunction with the Instrumentation and Measurement Society-sponsored conferences may be published in a Special Issue of the TRANSACTIONS. Submission of a Special-Issue manuscript requires specific and additional disclosures and acknowledgements. Instructions for submitting a Special-Issue paper may be found at (ewh.ieee.org/soc/im/imnew/pub_tron_im.htm) or on the Transactions manuscript submission and review process web site (<http://tim.allentrack.net>).

IEEE COPYRIGHT

It is the policy of the IEEE to own the copyright to the technical contributions that it publishes. To comply with this policy under the U.S. Copyright Law, an electronic Copyright Form must be submitted at the time of manuscript submission. In addition, before a manuscript can be published, an original signed copy of this form must be mailed or faxed to the transactions administrator. The Copyright Form may be found at (ewh.ieee.org/soc/im/imnew/pub_tron_im.htm) or at (<http://tim.allentrack.net>). The form also outlines the rights of the authors to the intellectual property, material re-use and other related matters.

OVERLENGTH PAGE CHARGES

All papers of eight or fewer pages in length are printed free of charge to the authors. Authors agree to pay a mandatory overlength page charge of \$225 per page (or fraction thereof) beyond eight published pages. If a paper is estimated to exceed the free-publication page limit, the author has a choice either to pay the overlength page charge or to condense the paper (see below for estimating published paper length). An electronic Overlength Page Charge Agreement must be submitted along with and at the time of manuscript submission. Before a manuscript can be published, an original signed copy of this form must be mailed or faxed to the transactions administrator. Authors will be billed after the publication of their manuscript. The Overlength Page Charge Form can be found at (<http://tim.allentrack.net>) or at (ewh.ieee.org/soc/im/imnew/pub_tron_im.htm). The overlength page charge may be waived by the Editor-in-Chief in special cases (such as invited state-of-the-art review articles, etc.) and ONLY by prior agreement.

This policy is not related to that when the Editor-in-Chief requests that very long manuscripts be reduced prior to technical review.

GUIDE TO ESTIMATING NUMBER OF PRINTED PAGES

Approximately three double-spaced (12-point font, 26 lines per page) typewritten pages will make one printed page. Approximately six single-column figures having a 1:1 aspect ratio will fit on one printed page.

GUIDE TO MANUSCRIPT PREPARATION, SUBMISSION AND TRACKING

The manuscript submission, review and tracking process is accomplished electronically through the TIM manuscript submission web-site (<http://tim.allentrack.net>), supported by Allen Press, Inc., Lawrence, KS, U.S.A. Prior to the submission of a manuscript, authors are required to register at the web-site and familiarize themselves with the Author Instructions page. Subsequently, the manuscript may be uploaded using a series of easy-to-follow steps. Complete information regarding approved text, figure, graph and table formats is provided in the Author Instructions page and throughout the manuscript submission process.
